

Associate

Michael Davanzo

Michael Davanzo is responsible for real estate sales, leasing, project formation and promoting the sale of Equity services: an integrated full service firm offering brokerage, development, construction, finance, and property management services. Michael provides real estate solutions for clients that focus on healthcare and office requirements.

More specifically, some of Michael's tasks are advising physicians on real estate decisions and helping business owners with lease negotiations and real estate acquisitions. He also helps investors with land and office investments in north Columbus. Michael strives to provide accurate information to clients so they can make prudent, informed real estate decisions. As a Columbus native, he has watched suburban Columbus grow and develop. This gives him a solid grasp of the local real estate markets. Michael is committed to understanding his client's long-term plan for their businesses and how real estate decisions impact those goals.

Before joining Equity, Michael was a residential real estate agent. He specialized in helping first-time homebuyers purchase homes that they loved and that were also excellent financial investments. Previous to this, he worked in residential construction management. He helped supervise and manage the construction of custom homes. This combination of understanding real estate markets as well as the construction of buildings provides a unique value to clients.

Michael graduated from the Ohio State University with a Bachelor of Arts in Communication. He continued his studies at Columbus State Community College where he earned an Associate's Degree in Construction Management. While he was working in residential construction management, Michael earned a 2008 Building Industry Association Scholarship and the following year he was awarded a 2009 Building Industry Association Scholarship as well.
